# REINERKELLER

---

As a Microsoft Power Platform expert, Microsoft Certified Trainer, consultant for Microsoft 365, and with over 30 years of experience in information technology, Reiner Keller embodies a comprehensive approach to designing and implementing solutions in the business world. His profound understanding of the Microsoft Power Platform makes him a trusted partner for companies seeking intelligent automation and digitalization solutions.

Reiner Keller's dedication is reflected in his ability to explain complex technologies in an understandable manner while developing tailored solutions that meet the unique needs of clients. With his broad range of experience and continuous development in the evolving IT landscape, he is a trailblazer who assists companies in harnessing the full potential of the Microsoft Power Platform and achieving their business goals.

He is committed to analyzing, consulting, training, and implementing digitalization and automation requirements, utilizing a wide spectrum of Microsoft technologies. He places particular emphasis on utilizing Microsoft Power Automate and Microsoft Power Apps in conjunction with Microsoft SharePoint/Lists to create customized solutions for clients.

His comprehensive expertise extends to the domains of Microsoft 365, Microsoft Office 365, and the Microsoft Power Platform, where he has successfully realized numerous customer projects, including Microsoft Outlook, Teams, Planner, Word, Excel, PowerPoint, SharePoint, Lists, Dataverse (CDS), Power Automate (Cloud Flow and Desktop Flow), Power Apps (Canvas Apps and Model Driven Apps), AI Builder, Forms, and Customer Voice.

He has repeatedly demonstrated his technical competence by guiding and executing projects involving Microsoft Graph API, Microsoft Power BI API, Adobe Acrobat Sign API, Philips Hue API, and sevDesk API.

Additionally, he offers his extensive expertise as a trainer. He is passionate about imparting his knowledge, skills, and abilities and therefore provides tailored training focusing on various aspects of the Microsoft Power Platform.
