REINERKELLER

As a Microsoft Power Platform expert, Microsoft 365 consultant, Microsoft Certified Train the Trainer, and with more than 30 years of experience in information technology, Reiner Keller embodies a comprehensive approach to designing and implementing solutions in the business world. His deep IT expertise, particularly in the context of the Microsoft Power Platform, makes him a trusted advisor for companies seeking intelligent digitalization and process automation solutions.

Reiner Keller's commitment is reflected in his ability to convey complex technologies in an understandable way while simultaneously developing customized solutions that meet the unique requirements of his clients. With his vast experience and continuous development in the ever-evolving IT landscape, he is a pioneer who helps companies unlock the full potential of the Microsoft Power Platform and achieve their business goals.

He is dedicated to the analysis, consulting, training, and implementation of requirements in the field of digitalization and process automation, leveraging a wide range of Microsoft technologies. He places particular emphasis on the use of Microsoft Power Automate and Microsoft Power Apps in conjunction with Microsoft SharePoint/Lists and Dataverse/SQL to create tailored solutions for his clients.

His comprehensive expertise extends across the domains of Microsoft 365, Microsoft Office 365, and the Microsoft Power Platform, where he has successfully delivered numerous customer projects utilizing Microsoft Outlook, Teams, Planner, Word, Excel, PowerPoint, SharePoint, Lists, Dataverse (CDS), Power Automate (Cloud Flows and Desktop Flows), Power Apps (Canvas Apps and Model-Driven Apps), AI Builder, Forms, and Customer Voice.

His technical proficiency has been demonstrated multiple times, as he has also led and implemented projects integrating Microsoft Graph API, Microsoft Power BI API, Adobe Acrobat Sign API, Philips Hue API, and sevDesk API.

In addition, he offers his extensive expertise as a trainer. He is passionate about sharing his knowledge, skills, and experience, providing tailored training programs that focus on various aspects of the Microsoft Power Platform.
